Canadian Citizen (TN Visa Eligible) | zlinjun@gmail.com | (206) 321-5208 | [LinkedIn](#) | [Portfolio](#)

UX Product Designer specializing in complex, AI-driven systems — designing and shipping end-to-end workflows under real-world constraints.

Education

University of Washington, Seattle, WA
Master of Science in Technology Innovation (MSTI) – Connected Devices   Expected Mar 2026

Sheridan College, Oakville, CA
Honors Bachelor of Interaction Design   Sep 2020 - Apr 2024

Experience

AWS & Washington Dept. of Fish & Wildlife (DFW) (Sponsored Academic Project) — Bellevue, WA
UX Product Designer | Sep 2025 - Present

- Led 0-to-1 product design for an ML decision system connecting field and lab workflows to replace manual routing.
- Designed a Human-in-the-loop interface to triage predictions and mitigate limited initial training data.
- Shipped the system into internal government use at DFW, establishing a data feedback loop that accelerated turnaround by ~50%.

Bosch Home Comfort Group — Shanghai, China
UX Designer | Jun 2025 - Sep 2025

- Executed responsive UX optimizations for web and mobile HVAC products, strictly applying global design system guidelines to ensure brand consistency.
- Contributed to cross-functional experience design for internal events, helping deliver workflows that cut external agency costs by ~20-30%.

T-Mobile (Sponsored Academic Project) — Bellevue, WA
UX Product Designer / Development Lead | Mar 2025 - Jun 2025

- Designed the end-to-end system experience for a dual-sided IoT rehab platform, connecting BLE wearables with patient + clinician workflows.
- Defined calibration flows, system states, and exercise thresholds, translating patient measurements into actionable UI feedback.
- Optimized capture → review → follow-up time by ~35% (early evals) and clinician review effort by ~40%; shipped components adopted into T-Mobile's internal repo.

Sheridan College — Oakville, CA
Interaction Designer | Oct 2022 - Apr 2023

- Designed responsive layouts for the "Meet the Graduates" experience (3,000+ attendees)
- Improved IA and responsive layouts, reducing navigation depth by ~40% across devices

Skill Squirrel — Toronto, Canada
UX Designer | Apr 2022 - Aug 2022

- Redesigned onboarding flows and dashboards, reducing early user drop-off by ~25% and engineering revision cycles by ~30%.

SKILLS & TOOLS

Product Design: Interaction Design , Information Architecture , User Flows , Workflow & Decision Architecture , Design Systems , Usability Testing , User Research , Human-AI Interaction, Data-driven Design, Accessibility.

Technical & Prototyping: Front-end Development (React, JavaScript), Firebase, System & BLE Integration, Technical Specification, Computational Design, AWS Ecosystem (EC2, S3), Git

Software & Industry Tools: Figma, FigJam, Adobe Creative Suite (AI, PS, AE), Jira, Notion, Miro, Tableau

AWARDS

UW GIX Creative Project Award (1st, 2025) | Adobe Creative Jam (Top 10, 2022) | Faculty Mention (2023)
